Presents

Forcible Entry: Through – the – Lock

Hosted By

Smithfield Vol. Fire Dept.

Course Description

Class consists of a short power point covering the rules of forcible entry, types of tools used, forcible entry size-up, and construction of doors, in addition to other hardware they may face. The majority of the class will provide participants with **extensive hands-on training** using proven methods to limit property damage and reduce time on scene.

Participants will rotate through multiple stations forcing various styles of locks. They will have an opportunity to handle and view a large variety of locks and door hardware. The goal of this class is to provide participants with a strong understanding of how these locks work and how they can be defeated. We will provide participants with variety of options for forcing locks based on the tools they may carry, along with a variety of other tools.

WE WILL CHANGE THE WAY YOU VIEW LOCKS FOREVER!
